Clinicians Can Now Provide the Following Additional Services by Telehealth

Medicare Telehealth

Clinicians can now provide more services to beneficiaries via telehealth so that clinicians can take care of their patients while mitigating the risk of the spread of the virus. Under the public health emergency, all beneficiaries across the country can receive Medicare telehealth and other communications technology-based services wherever they are located. Clinicians can provide these services to new or established patients. In addition, providers can waive Medicare copayments for these telehealth services for beneficiaries in Original Medicare.

To enable services to continue while lowering exposure risk, clinicians can now provide the following additional services by telehealth:

- **Emergency Department Visits, Levels 1-5: CPT codes 99281-99285**
- **Initial and Subsequent Observation and Observation Discharge Day Management: CPT codes 99217-99220; CPT codes 99224- 99226; CPT codes 99234- 99236**
- **Critical Care Services: CPT codes 99291-99292**
- Initial hospital care and hospital discharge day management: CPT codes 99221-99223; CPT codes 99238- 99239
- Initial nursing facility visits, All levels (Low, Moderate, and High Complexity) and nursing facility discharge day management: CPT codes 99304-99306; CPT codes 99315-99316
- Domiciliary, Rest Home, or Custodial Care services, New and Established patients: CPT codes 99327- 99328; CPT codes 99334-99337
- Home Visits, New and Established Patient, All levels: CPT codes 99341- 99345; CPT codes 99347- 99350
- Inpatient Neonatal and Pediatric Critical Care, Initial and Subsequent: CPT codes 99468- 99473; CPT codes 99475- 99476
- Initial and Continuing Intensive Care Services: CPT code 99477- 994780
- Care Planning for Patients with Cognitive Impairment: CPT code 99483
- Psychological and Neuropsychological Testing: CPT codes 96130- 96133; CPT codes 96136- 96139
- Therapy Services, Physical and Occupational Therapy, All levels: CPT codes 97161- 97168; CPT codes 97110, 97112, 97116, 97535, 97750, 97755, 97760, 97761, 92521- 92524, 92507
- Radiation Treatment Management Services: CPT codes 77427
- Licensed clinical social worker services, clinical psychologist services, physical therapy services, occupational therapist services, and speech language pathology services can be paid for as Medicare telehealth services.

A complete list of all Medicare telehealth services can be found here:

<https://www.cms.gov/Medicare/Medicare-General-Information/Telehealth/Telehealth-Codes>

Virtual Check-Ins & E-Visits •

- Additionally, clinicians can provide virtual check-in services (HCPCS codes G2010, G2012) to both new and established patients. Virtual check-in services were previously limited to established patients.
- Licensed clinical social workers, clinical psychologists, physical therapists, occupational therapists, and speech language pathologists can provide e-visits. (HCPCS codes G2061-G2063).
- A broad range of clinicians, including physicians, can now provide certain services by telephone to their patients (CPT codes 98966 -98968; 99441-99443)

Remote Patient Monitoring

- Clinicians can provide remote patient monitoring services to both new and established patients. These services can be provided for both acute and chronic conditions and can now be provided for patients with only one disease. For example, remote patient monitoring can be used to monitor a patient's oxygen saturation levels using pulse oximetry. (CPT codes 99091, 99457-99458, 99473- 99474, 99493-99494)

Removal of Frequency Limitations on Medicare Telehealth

To better serve the patient population that would otherwise not have access to clinically appropriate in-person treatment, the following services no longer have limitations on the number of times they can be provided by Medicare telehealth:

- A subsequent inpatient visit can be furnished via Medicare telehealth, without the limitation that the telehealth visit is once every three days (CPT codes 99231-99233);
- A subsequent skilled nursing facility visit can be furnished via Medicare telehealth, without the limitation that the telehealth visit is once every 30 days (CPT codes 99307-99310)
- Critical care consult codes may be furnished to a Medicare beneficiary by telehealth beyond the once per day limitation (CPT codes G0508-G0509).

Other Medicare Telehealth and Remote Patient Care • For Medicare patients with End Stage Renal Disease (ESRD), clinicians no longer must have one “hands on” visit per month for the current required clinical examination of the vascular access site. • For Medicare patients with ESRD, we are exercising enforcement discretion on the following requirement so that clinicians can provide this service via telehealth: individuals must receive a face-to-face visit, without the use of telehealth, at least monthly in the case of the initial 3 months of home dialysis and at least once every 3 consecutive months after the initial 3 months. • To the extent that a National Coverage Determination (NCD) or Local Coverage Determination (LCD) would otherwise require a face-to-face visit for evaluations and assessments, clinicians would not have to meet those requirements during the public health emergency. • Beneficiary consent should not interfere with the provision of telehealth services. Annual consent may be obtained at the same time, and not necessarily before, the time that services are furnished. • Physician visits: CMS is waiving the requirement in 42 CFR 483.30 for physicians and non-physician practitioners to perform in-person visits for nursing home residents and allow visits to be conducted, as appropriate, via telehealth options.
